THE POWER OF NATURE MEETS PERFORMANCE

CLO 3D DESIGN

PORTFOLIO

BY FATIMA TUZ JOHARA

FATIMA TUZ JOHARA

FASHION DESIGNER (TECH PACK - CLO 3D SPECIALIMIST)

I am a professional fashion graphic designer with a degree in fashion design and over 7 years of experience in the garment manufacturing industry. I am familiar with the entire production process, from concept to final product, and I have a strong understanding of fabrics and production teams to ensure all aspects of the designs are executed properly.
I was employed at "Sharna Garments LTD" which was a woven manufacturing company. I was responsible for the entire end-to-end production of denim pants for renowned brands such as Tommy Hilfiger.

ATHLEISURE ACTIVEWEAR A/W 2025 WOMEN'S WEAR

01 CONCEPT INTRODUCTION

"BioVibe" collection—an eco-conscious active-wear line inspired by the synergy of nature and power. The green leopard print symbolizes strength, agility, and sustainability, blending animal instinct with modern performance wear. This collection can incorporate eco-friendly fabrics like recycled polyester or bamboo blends while featuring bold, abstract variations of leopard spots in shades of emerald, neon green, and deep forest hues.
